

## We Don't Just Help Your Line Run Better. We Keep You Running Down The Line.

At SEW-EURODRIVE, we don't just sell products to help your operations run better now. We create a solution that will keep you moving in the future. Our decentralized control solutions integrate motor control, communications and safety, making it easier and less costly to engineer a control system. Giving you unprecedented design flexibility, operating efficiency and system cost savings. Anywhere in the world. So you can keep moving forward. And with 11 manufacturing facilities, 61 regional assembly centers and hundreds of sales and technical support offices all over the world, you can be sure there is someone nearby to help you if you need us down the line.
